## D320 ClearFlex ME Aqueous Based Liquid Laminate for Truck side, Fleet, and Vehicle Graphics

- ▼ Extremely durable
- ▼ Formulated for truck side and fleet graphics
- ▼ Minimizes dirt pickup
- ▼ Minimizes the effect of UV light transmission
- ▼ Minimizes the effect of oxidation, moisture, and temperature
- ▼ High abrasion resistance

## What are Liquid Laminates

TRIANGLE® Liquid Laminates are a series of products from INX Digital designed specifically to protect prints from UV light and other environmental effects. There are solvent-based and aqueous-based products to protect respectively water-based and solvent-based prints. TRIANGLE® Liquid Laminates are of the highest quality, giving your prints the best protection.

## Why Liquid Laminates

TRIANGLE® Laminates protect digitally produced images from abrasion, water, and premature fading while maintaining the flexibility and elasticity of the media; they are weldable. They also "pop" the colors, giving a wet look to the print. While providing these features TRIANGLE® Liquid Laminates also maintain a lower cost per square meter in comparison to hard laminates.

## UV Protection

TRIANGLE® has set new higher standards in quality with their Liquid Laminates: blocking 99% of light by utilizing current "state-of-the-art" methods in UV protection; UVA UltraViolet Absorber and HALS- Hindered Amine Light Stabilizers. When used in accordance with TRIANGLE® inks, your print job's lifetime will be extended.

## How to apply Liquid Lamintes

TRIANGLE® Liquid Laminates can be applied using various methods dependant on the type of coating and substrate being utilized: automated coaters, brushing, rolling, or spraying are all viable options. To obtain optimal protection, it is recommended to apply the specified required amount of coating to the substrate (specific to product type). Follow the product applications instruction for best results. Always test before use.

6 x 1 liter Bottles  
Net quantity 6 liters

4 x 5 liter Bottles  
Net quantity 20 liters

1 x 20 liter Bottles  
Net quantity 20 liters

## Color Center

INX Digital provides custom profiles to our customers. Every print shop is unique in their set up just as every printer is slightly different from the other. For this reason we offer to create custom profiles for our customers various needs.

## Spare Parts

INX Digital offers common replacement parts (at a significant savings over the OEM) for many of the printers that it manufactures ink for. These parts are the same parts that are sourced by the manufacturers themselves, refurbished, or are re-sourced to solve known problems.
